

MÖLLE HAMN EK FÖR

Protect yourself and others from spread of infection

The harbour in Mölle is open and ready for your visit. You are more than welcome to visit Mölle Harbour, however we ask you kindly to help us avoid spreading the Covid-19 virus. You can do so by complying with some simple manners:

- Wash your hands often
- Cough and sneeze into your elbow
- Avoid touching your eyes, nose and mouth
- Stay home if you have any symptoms

If you feel unwell with cold symptoms, cough or fever, you should try to avoid contact with other people. This applies even if you only feel slightly unwell. It is important that you do not risk infecting others.

Watch for symptoms of COVID-19

The main symptoms reported are a fever and a cough. Other common symptoms are shortness of breath, a sore throat, a headache and aching muscles or joints. Most people only experience mild symptoms that get better by themselves through self-care at home. Some people develop more severe illness such as breathing difficulties or pneumonia.

If you arrive from the sea and intend to stay in the harbour please take especial precautions when you anchor your vessel next to another boat. Try to avoid touching the other boat and keep a good distance. We recommend that you limit your "getting on/off" to a minimum.

Please show your usual respect to each other and we will together weather the storm.

Welcome to Mölle harbour
